SUMMARY

Computer Science graduate with experience in UI/UX design, digital projects, and online community engagement. Creative, adaptable, and passionate about building meaningful digital experiences while continuously learning and growing.

EDUCATION

BACHELOR IN COMPUTER SCIENCE - Islamic University 2025

PROJECTS

Reax 2026
Founder & Full-Stack Developer
- Built authentication, social features, book discovery, library management, reviews, and personalized feeds.

Skyline artifacts 2025
Tuwaiq Academy - Drones Programming Bootcamp
- Developed an autonomous drone survey system using **PX4, Gazebo, ROS 2, MAVSDK, Python, and OpenCV**.

Saudi Street Watch 2025
Sadia Academy - Computer Vision Track
- Built and trained a public-space violation detection system using **YOLO, Python, OpenCV, Ultralytics, and Roboflow**.

Jabal — Smart Digital Region 2025
Tuawiq academy
- Produced aerial mapping and GIS analysis using **Pix4D, ArcGIS Pro, remote sensing, and spatial data**.

Online Gas Cylinder Sales & Distribution System 2025
Senior Project Islamic University of Madinah
- Developed a full-stack management system using **Flask, MySQL, HTML, and CSS**, with authentication, inventory, and order management.

CERTIFICATES

UI/UX Design Certificate — Design & Creative Tools
Flutter Development Certificate — Design & Creative Tools
Python Programming — Python 101–104
SQL — SQL 101–103
Machine Learning Fundamentals — Artificial Intelligence & Data
Git Essentials — Programming & Software Development
English Language Certificate — Wall Street Institute

SKILLS

Development: React Native, TypeScript, Python, Java, SQL, HTML/CSS, Flask, Flutter
UI/UX: Figma, UI/UX Design, Responsive Design, Prototyping, User Flows
AI & Computer Vision: YOLO, OpenCV, Roboflow, Machine Learning
Tools & Technologies: Git, GitHub, Supabase, MySQL, ROS 2, PX4
Additional: Social Media Management, Communication, Public Speaking

LANGUAGES

Arabic: Native | **English:** Fluent | **French:** A2
