SUMMARY

Computer Science graduate with experience in software development, UI/UX design, and drone programming. Experienced in building mobile applications and user-centered digital products, with additional experience in computer vision and cybersecurity. Passionate about creating functional, intuitive, and visually engaging technology.

EDUCATION

BACHELOR IN COMPUTER SCIENCE - Islamic University 2025

EXPERIENCE & TRAINING

Cybersecurity Team Leader & Designer — Co-op Training
GRC Department | Islamic University

- Designed approximately **300 cybersecurity awareness posters** for a Saudi cybersecurity awareness fair.
- Created visual materials to communicate cybersecurity concepts in a clear and accessible way.
- Led and coordinated cybersecurity awareness and design-related tasks within the team.
- Supported **Governance, Risk, and Compliance (GRC)** documentation and awareness initiatives.

PROJECTS

Reax 2026
Founder · Full-Stack Developer · UI/UX Designer

- Built authentication, social features, book discovery, library management, reviews, and personalized feeds.

Pixel Closet 2026
Founder · Full-Stack Developer · UI/UX Designer

• Designed and developed a digital wardrobe app using **Flutter and Dart**, with outfit creation, image handling, local data storage, sharing, and custom interactive UI.

Skyline artifacts 2025
Tuwaiq Academy - Drones Programming Bootcamp

- Developed an autonomous drone survey system using **PX4, Gazebo, ROS 2, MAVSDK, Python, and OpenCV**.

CERTIFICATES

- **UI/UX Design** — Design & Creative Tools
- **Flutter Development** — Design & Creative Tools
- **React Development** — Front-End Development
- **PX4 & ROS 2 Drone Simulation** — Drone Programming
- **Git Essentials** — Programming & Software Development
- **Python Programming** — Python 101–104
- **SQL** — SQL 101–103

SKILLS

- **UI/UX:** Figma, UI/UX Design, Responsive Design, Prototyping, User Flows
- **Development:** React, React Native, TypeScript, Flutter, Python, Java, SQL, HTML/CSS, Flask
- **AI & Computer Vision:** YOLO, OpenCV, Roboflow, Machine Learning
- **Drones & Robotics:** PX4, ROS 2, MAVSDK, Gazebo
- **Tools & Technologies:** Git, GitHub, Supabase, MySQL

LANGUAGES

Arabic: Native | **English:** Fluent | **French:** A2
